

Carl (Rome) Colmenares

IT Support · Help Desk · Technical Training - CompTIA Security+ (IAT II) • A.A.S. Cloud Computing
Houston, TX • 281-330-4566 • romanaegis@gmail.com • romecolmenares.com • [linkedin.com/in/rome-colmenares](https://www.linkedin.com/in/rome-colmenares) • github.com/romanaegis

PROFESSIONAL SUMMARY

IT support and help desk professional with an A.A.S. in Cloud Computing and a CompTIA Security+ certification, and 20+ years delivering front-line technical support and customer service. Skilled in troubleshooting Windows and Microsoft 365, hardware, laptops, printers, and peripherals, networking fundamentals, and end-user training, with hands-on cloud (AWS, Cloudflare), Python, and automation experience. Known for calm, patient problem-solving, thorough ticket documentation, and end-to-end ownership of every issue through resolution.

TECHNICAL SKILLS

Technical Support: Help desk & end-user support, hardware / laptop / printer / peripheral troubleshooting, Windows 11, Microsoft 365 / Office, ticketing & ITSM (ServiceNow, Jira), remote support, incident management, customer service, SLAs
Cloud: AWS (Lambda, S3, DynamoDB, Amplify; coursework & projects), Cloudflare (Workers, D1, Pages), serverless architecture, cloud fundamentals
Security: CompTIA Security+ (DoD 8570 IAT Level II), networking & security fundamentals, identity & access / provisioning, security awareness training, CIA triad, common attack vectors
Programming: Python, SQL, JavaScript / TypeScript, React; scripting & automation
Tools & Platforms: Active Directory, VMware virtualization, Git & GitHub, Linux/Unix, Docker & containers, n8n automation
Training & Enablement: Instructional design (ATD), technical training delivery, curriculum & e-learning development, technical writing & documentation, knowledge base development, stakeholder communication, team leadership

CERTIFICATIONS & EDUCATION

CompTIA Security+	December 2025
AWS Cloud Foundations	November 2024
Associate of Applied Science, Cloud Computing - San Jacinto College, Houston, TX	May 2026
<i>In progress: AWS Certified Cloud Practitioner</i>	

PROFESSIONAL EXPERIENCE

Software Developer & IT Support (Founder) - Birdseed Studios, Houston, TX 2024 – Present

- **Product development:** Took a web application from concept to public beta - React/TypeScript front end, Cloudflare serverless back end (Workers, D1), and LLM-powered features (Claude API), including a character generator and automated content tooling.
- **AI automation:** Built AI-assisted production workflows (n8n, Python) for video, publishing, and project organization - including a Resume Tailoring Automator (n8n + Groq/Llama 3.3, React front end; live demo on portfolio).
- **Support & training:** Provide hands-on technical support and end-user training for clients - troubleshooting hardware, software, and web-application issues, and documenting clear, reusable solutions.

Operations & Technical Support Manager (Owner-Operator) - PetsOnTheGo, Houston, TX 1996 – 2023

- **Customer & technical support:** Primary liaison to United Airlines' PetSafe program and first point of contact for customers and staff - resolved issues by phone, email, and in person, coordinated across proprietary airline systems, booking/scheduling, and communications platforms, and documented every case. My station achieved the lowest error rate by volume of any station handling the product.
- **Training & instructional design (ATD):** Designed and delivered training programs, including e-learning content and documentation, for staff and partners, translating complex safety and compliance requirements into clear, actionable learning.
- **Leadership & management:** Ran all aspects of the business - staffing, scheduling, client relationships, systems and process optimization - leading teams and resolving issues in real time in a high-pressure, results-oriented environment.
